VIOLET-BLUE REVITALAZER RESEARCH

Research had been done on GDV Pro System, a cutting edge medical grade technology from Russia which was developed by a team of biophysicists, scientist and other researchers headed by Dr. Konstantin Korotkov. The GDV Pro System captures, compares and contrasts energy field properties of both living beings and water that is normally not visible to the human eye.

The GDV Atlas program is part of a sophisticated suite of specialized GDV software that calibrates the functional state of all organs and body systems, accurately and effectively portrays results and displays in pictorial form any organ lying outside of age & gender-specific parameter norms. The program also is able to highlight organs in each capture that come 'on-line' yielding and inside-out view of underlying bodily processes. This is an invaluable tool to quickly track physiological changes through time.

VIOLET-BLUE REVITALAZER TESTIMONIALS

"I've had severe sensitivity on my lower gums for years. For 2 months now I have been using the violet laser on my lower gums 3 times a day for 3 minutes each use. I noticed a significant change after the first week of use. After the first month about 80% of the pain was gone. Now, after 2 months of continual use the pain is completely gone! I will continue to use the violet laser once a day to keep the pain away.

It's amazing. Thank you for the wonderful product!" — Rhonda S.

"After a great outdoor trip doing qigong, labyrinth and meditation, with the cooler temperatures and wind kicking up dust and pollen in the desert, my sinuses were acting up during the evening. I went to bed, but woke up at 2 am stuffed up and not breathing well. Did the netti pot with sea salt and Violet Naturalasered the hot water for 3 minutes. I was so stuffy, that I had to do it twice. Wow! Results were amazing. I've done the netti pot before, however, this time, the passages were so opened and clear, I could really breathe deeply and fully! I was surprised at how open my nasal passages were. Fell back asleep quickly and all through the next day, passages were open and I could take a full breath from both nostrils. No runny nose, no sneezing or feeling of cotton in the head! I also had a glass of water in the morning that I used the Violet Naturalaser for 3 minutes. Great feeling of well being and energy! Would have loved to have

been tested on the machine that records your energy field before and after!! Truly impressed! Love, gratitude and blessings." — Harriet Y., NV

"I have had a place on my elbow for many years that doesn't seem to heal

completely, and when it opens into a full open sore, I usually use some black salve on it and it will heal mostly, and then later open up again.

I started using the pureVibranz Violet laser on it about 3 minutes most days about 6 weeks ago instead of the black salve, and it has closed up and is looking really good. The scar tissue that has built up is getting smaller." — Joe B., NV
